- Amish Paste\*** This heirloom tomato dates back to the late 1800s. Great for canning and sauces. The fruit is bright red, flavorful, plum-shaped, weigh about 8 oz. and have low enough acid content that they are nice for slicing fresh also. Indeterminate.
- Baby Boomer\*\*** Very prolific plants yield 300 or more 1-in tomatoes right up to frost. Compact, whorled plants are perfect for patio planters - should be caged.
- Beefmaster** Plant produces enormous yields of large, meaty beefsteak tomatoes. Tomatoes turn deep red when mature. Excellent for salads or sandwiches. Indeterminate.
- Better Boy** Great performer with bright red globes, 8-16 oz., juicy yet meaty tomatoes. A good all-around choice. Disease resistant. Indeterminate.
- Big Beef** This plant produces red, large (10-12 ounce) fruit on indeterminate plants. Exceptional yields, even under adverse growing conditions. Indeterminate.
- Big Mama\*\*** Plum-shaped and enormous. In the kitchen, this variety is easy to peel and core. One of the best paste tomatoes, Big Mama is excellent in sauces. Indeterminate.
- Biltmore** 10-12" size Deep oblate. Good disease resistance. Tasty and smooth fruit are firm with small blossom end scar. Strong. Determinate.
- Black Truffle** Deep burgundy color with undertones of purplish-black. High in both sugars and acid, creating a sweet, strong, complex flavor that is hard to beat. Indeterminate.
- Brandy Boy\*\*** Large pink fruits that ripen evenly, with soft heirloom texture, thin skin and that same incredible flavor. Upright, manageable growth habit. Indeterminate.
- Brandywine Red\*** Big fruit of purplish-red, deeply lobed and not at all "uniform"! Delicious flavor. Vines bear heavily over a long season. Indeterminate.
- Burpee Big Boy** These vigorous plants are a vegetable gardener's favorites, yielding large scarlet tomatoes. Indeterminate.
- Bush Early Girl** Huge yields on small plants. Large 6 to 7 oz. fruit has a good flavor. Early tomato. Disease resistant. Compact determinate.
- Candyland Red** Easy to grow, earlier and easy to harvest compared to other current tomato varieties. Branched trusses are accessible for more useable fruit with less damage while picking. Very high yielding, very sweet flavor. Compact, sprawling.
- Carolina Gold** High yields of extra large golden yellow tomatoes. Tomatoes are very flavorful and turn golden yellow when mature. Disease Resistant. Determinate.
- Celebrity** This vigorous variety is highly productive under a wide range of growing conditions. Firm, flavorful, 8-ounce, 3½-inch, deep oblate fruits are smooth and of high quality. Resistant to or tolerant of a broad range of diseases. Determinate.
- Cherokee Purple\*\*** The flesh of Cherokee Purple is brick-red and very attractive sliced on a plate. Indeterminate.
- Cuore di Bue\*** Superior Italian heirloom, fantastic flavor, unique ribbed oxheart shape, juicy pink red flesh. Great for salads or sauces. Indeterminate.
- Delicious\*** Plant produces good yields of gigantic red meaty tomatoes. Very few seeds! Excellent for salads, tomato juice, and canning. Perfect slicing tomato. Crack Resistant. Indeterminate.
- Fourth of July\*\*** Plentiful harvest of vine-ripened red, luscious 4 ounce tomatoes. Indeterminate.
- Giant Belgium** A succulent and enormous dark pink tomato is sweet and very mild. When ripe fruits retain green pigment, tomatoes take on purple and brownish hues. Indeterminate.
- Health Kick** Contains 50% more cancer-fighting lycopene than other tomatoes. Red, plum-shaped, 4 oz. fruits. Resistant to spotted wilt virus. Grows to 4 feet with stalking. Determinate.

- Solar Power \*\*** The brilliant orange, meaty fruit can produce more than three times the level of beta-carotene than the average garden tomato. Perfect for salads and sauces, with the bonus of extra health. Indeterminate.
- SteakHouse Hybrid** One of the world's largest beefsteaks bears high yields of broad-shouldered tomatoes loaded with true heirloom flavor and wonderful fragrance. Indeterminate.
- Stellar** ***High resistance to Late Blight***, Fusarium Race 2 and Verticillium plus Intermediate resistance to Early Blight. High yields of round, red, slicing tomatoes. Determinate. Benefits from trellis for support.
- Sunsugar** Golden cherry tomato, ½" fruit, very sweet, high yield. Indeterminate.
- Supersteak** Plant produces good yields of large 2 lb size red beefsteak tomatoes. The tomatoes have rich tomato flavor, are meaty, and turn red when mature. Excellent for salads and sandwiches. Crack and disease resistant. Indeterminate.
- SuperSweet 100** Bursting with sugary flavor, Sweet 100's produce scarlet, cherry-sized fruits in long clusters right up to frost. Indeterminate.
- Yellow Pear\*** This extremely old variety makes a vigorous plant, which bears enormous numbers of bright yellow, bite-sized fruit. The flavor is deliciously tangy. Perfect for summer party hors d'oeuvres. Indeterminate.
- Zechman** Heirloom tomato with yellow skin and red meat. Indeterminate.

Indeterminate varieties of tomatoes are also called "vining" tomatoes. They will grow and produce fruit until killed by frost and can reach heights of up to 10 feet although 6 feet is considered the norm. They will bloom, set new fruit and ripen fruit all at the same time throughout the growing season. They require caging and/or staking for support.
